Visualize | Realize | The leather you imagine, and more.

Brandenburg is a heavyweight, full grain leather with a velvety-soft natural hand that makes you want to wrap up in its luxury. We pair a rich, indulgent feel with exceptional strength and durability. Made in Germany, Brandenburg uses only large, grade "A" South German hides for quality you can immediately see and feel. Offered in over 40 colorways with a natural pebble grain and strong natural protection built in for stain resistance and cleanability, Brandenburg exudes exceptional German engineering: there's no question you're experiencing a quality, authentic leather.

**Environmental Stewardship:** Brandenburg is produced in a tannery which has been audited to the Leather Working Group environmental stewardship and traceability standards. Further enhancing its sustainability profile, Brandenburg is finished without the use of solvents or lead, emits low VOCs, and has achieved an Indoor Advantage Gold certificate from SCS.

## Performance Category 2

Leathers with Performance Category 2 retain their natural appearance while carrying additional protections against abrasion, staining and color fading. Aniline leathers with some protection and semi-anilines are found here. These leathers are suitable for a wide range of applications across a wide range of wear and stain risk, such as those found in commercial settings and dining areas. ## Care & Cleaning Code 3

Semi-aniline leathers are protected against scratching and scuffing and designed to maintain their beauty over time. Very little care is required—general upkeep requires only an occasional dusting with a clean cloth. Never use oils, saddle soaps, harsh cleaners or cleaners containing abrasives on semi-aniline leather. Periodically, you may wish to gently wipe the leather with a clean, damp cloth to remove accumulated soil, then allow it to air dry. Should a spill occur, blot (pressing gently without rubbing) immediately to avoid permanent discoloration with clean, dry sections of an absorbent cloth. Should soiling remain, a solution of lukewarm water and a mild soap such as Ivory® or a mild cleanser such as Woolite® may be used. Dampen a clean white cloth in the solution and gently wipe the affected area using a circular motion. Never apply the solution directly to the leather. Rinse completely with clean cloth which is damp with plain water until all cleaner is removed. Blot dry with a paper towels or dry cloth and allow to completely air dry. It may be necessary to repeat this procedure, allowing the leather to completely dry between applications. To avoid harming the leather, do not rub vigorously or for an extended period. It may not be possible to remove all stains from this natural product.
