LEATHERS

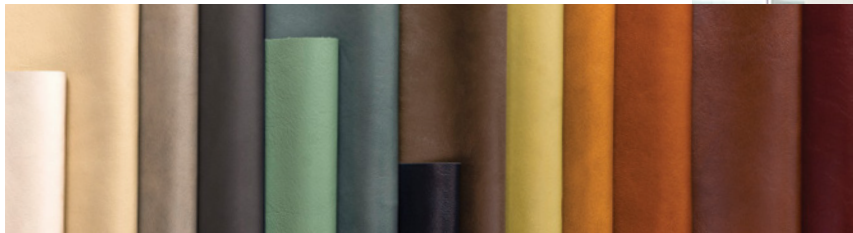

protected by

CRYPTON®

Where beauty meets performance.

Luxurious

Designers should not have to sacrifice beauty for performance

The recognized leader in performance leathers, Cortina Leathers is the exclusive provider of leathers with Crypton® protection. Even the most coveted and natural aniline leathers are available with Crypton. Cortina technical experts worked with Crypton engineers to develop a water-based finish that makes leather extremely cleanable, as well as being highly stain, water, wear, fade, and abrasion resistant, all while maintaining the same look, feel, and smell as unprotected leather. Now designers can specify genuine leather, the highest sign of luxury and the longest-lasting textile, worry-free in high-stain and high-wear interiors.

You design it, we make it happen

Sheen, color, feel, and texture are all customizable on Cortina Leathers with Crypton protection, and we offer a wide variety of leather designs—many stocked for quick shipment. Rely on us to ensure your selections are fit for purpose. Find your local Cortina leather specialist at cortinaleathers.com/find-a-rep/.

Clean and disinfect common spills and stains using many commercial and household cleaners

- Wine
- Coffee
- Vinaigrette
- Ketchup
- Ice cream
- Hair product
- Sunscreen
- Lotion

Cortina's leathers protected by Crypton can be cleaned and disinfected using many popular commercial and household cleaners already at hand and several approved by the CDC:

- Up to 5% bleach solution
- Sodium hypochlorite
- Quaternary ammonium
- Hydrogen peroxide
- Cortina Leathers Universal Cleaner High-Tech Leather Wipes®
- Ecolab® Peroxide Multi-Surface Cleaner & Disinfectant
- Lysol® Disinfecting Wipes
- Fantastik® All-Purpose Cleaner
- Clorox® Clean-Up + Bleach

Cleanable  CRYPTON.

Sustainable

Water-based and never wears off

Cortina's Crypton formula is water-based, solvent-free, and is embedded in the leather as an integral part of the leather making process, so it lasts as long as the furniture.

Safe and compliant

- Free of fluoride, C6, PFAs, or PFOAs
- Free of PBA, PVC, phthalates, or elastomers
- Free of heavy metals or silver
- Free of conflict minerals
- SCS certified for ultra-low VOCs to meet LEED certification requirements
- Compliant with stringent European REACH standards
- Cleared from California Prop 65 warnings

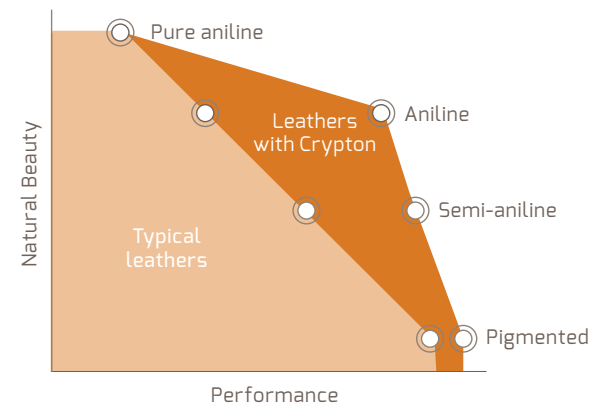

Environmentally friendly and biodegradable

With unmatched cleanability and stain, wear, and fade resistance, Cortina's leathers with Crypton protection last five times longer than fabrics, vinyls, or other faux-leather alternatives greatly increasing the usable life cycle of furniture and reducing the volume of materials in our landfills. And because the leather remains biodegradable, it is also a friend to our waterways and oceans.

Aniline beauty and full-finish protection—guaranteed

Crypton protection significantly boosts the performance of aniline and semi-aniline leathers to rival the stain resistance and cleanability of traditionally well-protected pigmented leathers. All Cortina leathers protected by Crypton can withstand high-traffic use typically found in restaurants, bars, hotels, workspaces, and homes—all the places we visit, work, and live.

- Industry-leading warranty
- Unparalleled cleanability
- Protection from stains
- Resistant to wear
- Resistant to abrasion
- Resistant to color fade
- Protection from UV damage
- Extends life of furniture
- Uncompromised hand
